

The community has spoken, but the ordinance becomes final after three council readings and then the council votes.

Americans for Prosperity is still involved with the anti std group. Some are writing to council urging them to vote no; some have already and probably are continuing to threaten reelections.

This ongoing campaign is not about losing. It's about not getting their way. Last year I was told, "I made it fail last time, I'll make it fail again". Tuesday the same person said "I hope this fails miserably, but if it doesn't I'll make it".

Politics can be nasty. Worse when the majority's vote doesn't seem to matter.

Please attend these council meetings to defend your vote. Let the council know, let everyone know you won't be bullied.

The council meetings will be held on August 13, September 3, and September 17 at 6pm.
